LONDON, Aug. 1.—The continued agitation over Great Britain's poor showing in the Olympic games brought about a meeting tonight of the athletic advisory club to consider the situation. Lord Desborough, who presided said that if Great Britain competed at Berlin in the next Olympic games, she must take the games as seriously as do other nations. He advocated a team representing the entire empire in the track events.

Lord Desborough proposed \$25,000 be raised in each of the next three years and \$50,000 the fourth year to be used for preparations. A letter from Sir Arthur Conan Doyle was read announcing that he would appeal to the public for \$125,000.

The Rev. R. S. De Courey Laffan, a member of the British Olympic committee, proposed that \$150,000 be raised.

The most exaggerated impressions prevail in England regarding the American Olympic team. Enormous sums were spent and an army of trainers carried according to British newspapers. Lord Dessential to the public for Dessential to the public for Size of the Standard of the ing to British newspapers. Lord Des-borough is quoted as snying the running track and swimining tank on beard the Finland for the Americans cost \$100,000. The solenn Blackwoods Magazine prints an editorial under the head "The Polly of International Sport," which is the flercest attack on the Americans that has yet appeared. It accuses them of Being professionals "whose only business is to show that these United States can whip the universe."
